Experience

Jasmine has been working in the healthcare sector for over a decade. Originally from Canada and a registered Kinesiologist; she has worked as a trainer and Kinesiologist, specialising in health promotion and arthritis targeted treatment for adults.

She continued to further her education and area of work by pursuing a Masters of Occupational Therapy in Sydney, Australia and has since worked across both public and private health sectors, inclusive of hospital-based settings, within the community and with people of all ages.

Jasmine employs a holistic and personalised approach to patient care and is committed to fostering a collaborative and empowering atmosphere that helps her clients gain confidence and independence, making an impact on their overall quality of life.

Jasmine enjoys combining her skills and knowledge as a Kinesiologist with her role as an Occupational Therapist, enhancing her patient care and understanding of function for those seeking support.

Jasmine offers assistance with:

- Functional capacity assessments
- General therapy
- Applications (i.e. Carers allowance/payment, Companion card, Carer card etc.)
- Medicare Rebate
